What to look for when selecting an *Insurance Company*

- ▶ Solvency (*Assets over Liabilities to meet all obligations*)
 - ▶ Liquid Assets (*To meet unforeseen emergency cash requirements that may arise*)
 - ▶ Capital & Surplus to Assets (*Capital & surplus divided by total assets*)
 - ▶ AM Best Rating (*Performance in Investment Quality, Policy Reserves, Cost Control, Management Experience*)
- 

Nationwide®
is on your side

Our work is — TO MAKE SURE — your work is rewarded.

As you retire, you want a company that will be with you through all the years ahead. Nationwide® is a U.S.-based company with a financial foundation rooted in asset management and an 89-year history of strength and stability. Our proud mutual heritage and ongoing commitment to our communities help us put customers first. And we're committed to keeping every promise we make.

Stable footing for your new adventure

As a Fortune 100 company with a diverse corporate portfolio, disciplined investment approach and long-term vision, we're able to navigate economic ups and downs. Our financial ratings regularly place us in the top 19% of insurance-based financial services companies for our risk management capabilities.†

Age 65

Guaranteed Contract Minimum Illustration Table¹

This is one hypothetical outcome of the product's performance and not a guarantee of future results. Please review all hypothetical scenarios included.

Contract Year End	Age ²	Earnings Growth Percentage ³	Contract Value	Surrender Value ⁴	Death Benefit ⁵	Bonus Income+ Income Benefit Base ⁶	Lifetime Withdrawals ⁷	Cumulative withdrawals
27	87	0.00%	\$0	\$0	\$0	\$504,000	\$31,500	\$724,500
28	88	0.00%	\$0	\$0	\$0	\$504,000	\$31,500	\$756,000
29	89	0.00%	\$0	\$0	\$0	\$504,000	\$31,500	\$787,500
30	90	0.00%	\$0	\$0	\$0	\$504,000	\$31,500	\$819,000

- ¹ This illustration reflects the guarantees in the Peak 10 contract. With the exception of the "at issue" row, all values shown are as of contract year end. Once lifetime withdrawals have been elected, the annuitization option in your contract equals your lifetime withdrawal benefit payment.
- ² Age shown is age of older annuitant. The lifetime withdrawal percentage used to determine the lifetime withdrawal is based upon the age of the determining life, or younger determining life if joint option is elected.
- ³ Shows the guaranteed contract minimum earnings rate of 0% credited to the contract at the end of each account term.
- ⁴ Surrender value includes Surrender Charges and assumes no Market Value Adjustment (MVA). An MVA is not applicable in all states.
- ⁵ Death Benefit shown is the greater of the Contract Value or surrender value.
- ⁶ The Income Benefit Base (during the accumulation phase and on the first day of the income phase) is the greater of the Contract Value or the Minimum Income Benefit Value.
- ⁷ Withdrawals greater than the lifetime income withdrawal amount will lower the income benefit base and future lifetime income withdrawal amounts proportionately. Withdrawals may reduce your death benefit and Contract Value; if a withdrawal reduces your death benefit, it will do so proportionately. The lifetime withdrawal percentage used to determine the lifetime withdrawals are based upon the age of the determining life, or younger determining life if joint option is elected.
- ⁸ The Annual Average Earnings rate is the compound annual growth rate that reflects the hypothetical weighted rate credited to the contract at the end of the term.

29	89	-1.07%	\$1,042,521	\$1,042,521	\$1,042,521	\$1,205,227	\$75,327	\$1,335,331
30	90	-1.16%	\$955,142	\$955,142	\$955,142	\$1,205,227	\$75,327	\$1,410,657

Annuitization will occur on the Annuity Commencement Date and will be based on the annuitization value of \$955,142.

See Guaranteed Contract Minimum Illustration Table for product guaranteed rates.

- ¹ This illustration reflects the guarantees in the Peak 10 contract. With the exception of the "at issue" row, all values shown are as of contract year end. Once lifetime withdrawals have been elected, the annuitization option in your contract equals your lifetime withdrawal benefit payment.
- ² Age shown is age of older annuitant. The lifetime withdrawal percentage used to determine the lifetime withdrawal is based upon the age of the determining life, or younger determining life if joint option is elected.
- ³ Surrender value includes Surrender Charges and assumes no Market Value Adjustment (MVA). An MVA is not applicable in all states.
- ⁴ Death Benefit shown is the greater of the Contract Value or surrender value.
- ⁵ The Income Benefit Base (during the accumulation phase and on the first day of the income phase) is the greater of the Contract Value or the Minimum Income Benefit Value.
- ⁶ Withdrawals greater than the lifetime income withdrawal amount will lower the income benefit base and future lifetime income withdrawal amounts proportionately. Withdrawals may reduce your death benefit and Contract Value; if a withdrawal reduces your death benefit, it will do so proportionately. The lifetime withdrawal percentage used to determine the lifetime withdrawals are based upon the age of the determining life, or younger determining life if joint option is elected.
- ⁷ The Annual Average Earnings rate is the compound annual growth rate that reflects the hypothetical weighted rate credited to the contract at the end of the term.

Remember the Nature of **Procrastination**

People Don't Plan to Fail
They Fail to Plan
