Annuity

Over 117 years of strength and stability

You can have confidence in Midland National®

Issued by Midland National® Life Insurance Company

We focus on what matters most

With 117 years of business under our belt, Midland National's continued and consistent financial strength is a result of our conservative and disciplined investment strategy, our private ownership structure, and doing what's right for our distribution partners and policyowners.

Speaking of policyowners, did you know...

Midland National holds over **1 million annuity and life insurance policies**, with assets of over **\$78.2 billion** in 2023.¹

History of strength

As an affiliate of the privately held Sammons® Financial Group, we are not subject to the short-term earning pressures that publicly held companies often face. As we reflect on over a century of life insurance business, we are proud of our history of making decisions for the long-term and of our continued tradition of financial strength and stability. The high ratings we've maintained from the major rating agencies are testaments to that strength:

“A+”

A.M. Best^{AS} (Superior) (Second category of 15)
S&P Global Ratings^{AC} (Strong) (Fifth category of 22)
Fitch Ratings^D (Stable) (Fifth category of 19)

With a track record like this, you can have confidence in Midland National.

The above ratings apply to Midland National's financial strength and claims paying ability. These ratings do not apply to the safety or performance of the variable accounts, which will fluctuate in value.

Are your retirement assets prepared for the next market downturn?

Contact your financial professional to see how a fixed index annuity can offer upside potential with downside protection from market losses.

Source for charts: <https://finance.yahoo.com/quote/%5EGSPC/history?p=%5EGSPC>

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product. These numbers depict historical returns and do not guarantee future performance. Fixed Index Annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indexes, without the risk of loss of premium due to market downturns or fluctuation. Although Fixed Index Annuities guarantee no loss of premium due to market downturns, deductions from your Accumulation Value for additional optional benefit riders or strategy fees associated with allocations to enhanced crediting methods could exceed interest credited to the Accumulation Value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index. The "S&P 500®" Index is a product of S&P Dow Jones Indices LLC or its affiliates ("SPDJI") and have been licensed for use by Midland National® Life Insurance Company ("the Company"). Important Questions to Consider

- ▶ If things don't work out in your current brokerage account, and you lose your savings investments, do they send you an apology to say we are sorry for the loss of your money?
 - ▶ Does your Brokerage company carry any of the risk of your money? No, you carry all the risk, as they get their fees and charges even if you lose.
 - ▶ With where you are today, would it be prudent to transfer this risk to the Annuity Company, and sleep at night with no worry of loss, or do you choose to maintain the risk?
- 

Remember the Nature of **Procrastination**

People Don't Plan to Fail
They Fail to Plan
